The TMR network on *"Integrability, Non-perturbative Effects and Symmetry in Quantum Field Theory"* organizes:

TMR Spring School 1999
Miraflores de la Sierra
Madrid, Spain
18-23 March 1999
on

String theory, Quantum Integrability,

Electro-magnetic Duality, Supersymmetry

Lecturers:

Ed Corrigan & Patrick Dorey (Durham): *Aspects of Quantum Integrability*
David Olive (Swansea): *Electro-magnetic duality*
Matthias Staudacher (Potsdam): *Large N techniques*
Peter West (King's College): *Supersymmetry and brane dynamics*

Organising Committe: César Gómez, Bert Janssen
